Overhead Exhaust System

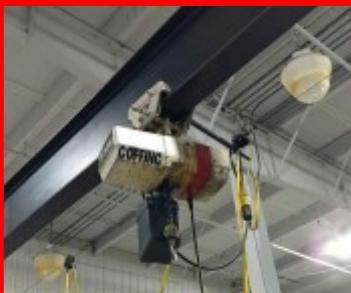

Over Head Exhaust System and Piping

System is currently being used over printing machines. Consist of 5 large exhaust canopies and lots of piping. System currently runs to two large exhaust fans that are installed in the wall of the building. The fans pull the exhaust out. The fans are built into the building and are not sold with the exhaust system. System will need to be removed by the buyer or an additional fee will need to be charge to remove the system.
